New Year For Adult School

Evening registration for fall classes offered by the Monterey Adult School will be held September 5, 6 and 7, Gerald O. Anderson, director of adult education for the Monterey Peninsula Unified School District, has announced. Classes will begin on September 11.

Registration can be accomplished between 6:30 and 9:30 p.m., September 5-7 at adult school offices located at both Monterey and Seaside high schools. Brochures listing class offerings are available at both offices during evening hours. They can also be obtained during the daytime at the adult school's administrative office, at 700 Pacific Street, Monterey.

Anderson advised adults wishing to take special interest

classes to register early, warning that such classes fill to capacity rapidly. In the past, such classes have included art, painting, crafts, ceramics and batik.

The Monterey Adult School is offering a wide range of classes at 14 locations throughout the district. Included are classes in English as a second language, history and citizenship. To help adults earn high school diplomas, the adult school offers a complete list of required courses.

"A growing number of adults are taking advantage of this diploma program," Anderson said.

In addition to offering course work leading to diplomas, the adult school is an official G.E.D. (General Educational Development) test center. Successful completion of the G.E.D. test may fulfill requirements for certain jobs and may be counted as credit toward a high school diploma, he said.

The adult school also offers a wide variety of vocational classes, including radio and television repair, auto mechanics, welding, typing, shorthand, nurse aide and dental or medical receptionist.

More information about the Monterey adult school program can be obtained by calling 649-7336 during the day or 649-7386 between 6:30 and 9:30 p.m., Monday through Thursday.

Class Is Beginning

The lives of 195 people were saved in the United States last year by some person applying Red Cross taught safety skills, states Mr. Marion Coolidge, First Aid Chairman of the Monterey County District, American Red Cross.

Mr. Coolidge reports that 3715 persons were given First Aid instruction in Monterey County last year.

Mr. Coolidge also announces a Standard First Aid Class to begin September 12 to 10 p.m. and will be held Tuesdays and Thursdays through September 29.

The class will be held in the multi-purpose room of the Del Monte School, 222 Casa Verde Way in Monterey. Mrs. Lydia Hoffos will instruct. The class meets the Occupational Safety and Health act of 1970, requirements for industry and high school equivalence for graduating students.

To register call 375-5730.

Tunney Endorses Camacho

Senator John Tunney recently campaigned in Santa Cruz, Watsonville and Salinas on behalf of 12th Congressional District Democratic Candidate Julian Camacho.

Senator Tunney and Camacho appeared first at a reception in Santa Cruz, and later at a breakfast in Watsonville. From there they went to a barbecue in Salinas which over a thousand people attended.

Summarizing his reasons for supporting Camacho, the Senator stated simply, "Camacho is a man who is interested in children, in senior citizens and education. He's a man who advocates job opportunities and strong environmental controls."

He went on to challenge the Republican incumbent's performance in Congress and received a strong response from his audience at Cooper House in Santa Cruz. "Has Burt Talcott voted to bring troops out of Viet Nam? Has he voted for tax reform? Has he voted for money to supply public works?" he questioned. There was loud shouts of "No." from members of the crowd. "Then that's reason enough to vote him out of office," Tunney concluded.

At a breakfast of over one hundred Camacho supporters, Senator Tunney expressed a concern over the future of American government. "We are faced with some very serious problems," he said quietly. "If we do not address them forcefully and imaginatively--if we fail to correct them--I really despair of what might happen to this great democracy of ours."

"I favor Julian Camacho's candidacy," the Senator went on to say, "because he's a man of compassion... I favor Julian Camacho's candidacy because he tells the same story back in Washington, D.C."

While in Santa Cruz the democrats also spoke with representatives of the Santa Cruz County Emergency Food Program, who asked for the Senator's support in their request for continued funding. Senator Tunney publicly endorsed the food program for children and senior citizens and expressed his "hope and desire that the program will be funded, and become a continuing operation."

"This is a cameo of what is happening all over the nation," claimed the Senator. "We create expectations and then just as people are getting some confidence that government can be responsive--We cut them off."

"Do yourself a favor," he said several times during the day. "Vote for Julian Camacho, the man who will best represent your needs. If the man you have in office now gets any more seniority he will be capable of doing more to prevent your interests from being served."

SBA Has Big Year

If the activity of the Small Business Administration during the past fiscal year is any indication that the economy is picking up, then Fiscal 1973 should be a banner year for California.

Reason for this optimistic prediction is that small businesses, through the Small Business Administration, received 40 percent more in loan funds during the fiscal year ending June 30 than it did the previous 12 months.

Records for Fiscal 1972 just released show that the SBA approved 2408 loans in the state of California alone. The loans had a total value of just over \$135 million.

Gilbert Montano, Regional Director for the SBA in San Francisco, said the totals represent the most productive year in SBA history in loan making and said that targets for the present fiscal year look for a further increase in loan activity by the agency.

The increase in loan volume, according to Montano, has several meanings. "More small businessmen are getting the type of long-term commercial loans that will help them to expand their businesses, they are strengthening their financial positions and they are more competitive," Montano said.

FRIENDLY GATHERING - Mrs. Helyn Short was lovely hostess on Friday, August 18, 1972, when she entertained Mrs. Bert Talcott. Some of the guests were: (standing from left) Mrs. Talcott; Mrs. Bessie Gough; Mrs. Sarah Jackson and Mrs. Short. Seated are: Mrs. Barbara Ballot and Mrs. Bea Smith. Following this entertainment, Mr. and Mrs. Talcott were guests at the home of Mr. A.C. Shoemaker in Pebble Beach.

MPC Offering More Help To Veterans

Veterans wishing to attend Monterey Peninsula College this fall will be better off with special assistance from the college, according to Dean of Student Personnel Jack Bessire.

In addition to helping veterans apply for regular G.I. educational benefits, the administration will work with those students having a hard time gathering admissions materials prior to Friday's deadline for regular day enrollment. Lack of a transcript need not deter a veteran from applying, according to Bessire.

"We're doing everything we can to help them get into school and receive their educational benefits," he said.

MPC is fully approved by the Veterans Administration for educational benefits. In order for an ex-serviceman to qualify, he must have served for 181 consecutive days and have received other than a dishonorable discharge. He may receive up to 36 months of educational assistance. Monthly payments are based on the number of semester hours for which a student is enrolled and the number of his dependents.

Currently, veterans with no dependents receive \$175 a month. The amount increases with the number of dependents. The figure is based on the number of hours for which the veteran is enrolled.

In order to receive assistance, an ex-serviceman must receive a certificate of eligibility from the VA and be enrolled in an approved institution, such as MPC. The veteran must also have a defined educational objective toward which he is working.

In addition to the regular educational assistance, veterans at MPC may qualify for Veteran's Tutorial Assistance. This program provides additional funds of up to \$50 a month to pay for tutors of veterans requiring help in achieving their stated objectives. The additional assistance may be received for up

to nine months. Starting in October, the college will offer a Veteran's College Refresher Program for those who need to improve English, math and reading skills before attempting regular college work. The students in this program receive regular educational benefits for the duration of the course. Classes will be scheduled to accommodate those who are working.

MPC also attempts to help ex-servicemen through the Veteran's Affairs Office, a new service located in the Student Services Building. The office acts as a referral agency in putting veterans in touch with sources able to help them with problems encountered by the average ex-serviceman.

Information about any of these benefits or programs may be obtained by calling 375-9821.

Sarah Vaughn is coming to the Monterey Peninsula. Sarah Vaughn, internationally known singer, will be at the Holiday Inn on September 1 and 2.

Miss Vaughn is one of the top rated female vocalists in the jazz field. She appeals to all music lovers.

"Sassy Sarah" has made several appearances at the Monterey Jazz festival. Each time she has received a tremendous reception. A few years ago she did a version of Alfie. By the time she finished everyone was moved. The whole audience was standing, cheering wildly.

To add to this great evening of entertainment Miss Debbie Joyce, one of the finest vocalists in the state will also perform.

Orientation At MPC Is Announced

Faculty, administrators and staff at Monterey Peninsula College are set to welcome new students to the campus during orientation week.

Students are invited to meet key staff members of the college in an open house to be held from 1-4 p.m., Monday through Friday, and from 7-9 p.m., on Wednesday. Offices which will be open include Financial Aids, Job Placement, Student Activities, Special Services, Counseling and Community Services.

On Tuesday, Wednesday and Thursday, an Orientation Faire will be sponsored by campus organizations from 11 a.m. to 2 p.m. on the flagpole green. Student organizations will have displays and booths set up to demonstrate their activities. On those three days, a free rock concert, featuring Harmony Grits, will be held during the noon hour.

During the orientation week, the MPC Film Club will show new and old comedies in LF 103, from 10 a.m. to 2 p.m. The film festival is free. Included will be the best of W.C. Fields, Chaplin and McLaren.

Four of the campus, orientation sessions dealing with vocational programs at MPC and a workshop on "How to Survive Registration" will be featured during the week. Vocational films will be shown in LF 103 at 11 a.m., 1 p.m. and 2 p.m. on Tuesday and Wednesday.

At the end of the first week of school on Sept. 15, a Presidents' Reception will be held from 1-3 p.m. in the College Center, providing students with an opportunity to meet the college's administrators, faculty and staff. The reception will be co-sponsored by the Associated Students of Monterey Peninsula College. Free entertainment and refreshments will be provided.

Tax Is Distributed

State Controller Hugh Flournoy announced the distribution of \$4,088,049 to counties and cities as the August apportionment of cigarette tax.

Monterey County received \$5,582,23, and Seaside got \$4,569,73, while Monterey got \$6,498,34. The 58 counties' share was \$768, 328 and the cities' share totaled \$3,319,721.

Bus Subsidy Approved by Councilmen

The Seaside City Council has approved a compromise formula to provide funding for the Bay Rapid Transit Company. Seaside will pay \$973 of the \$3,000 a month, which the company says it needs to provide transportation until a rapid transit district can be set up on the peninsula.

The city will pay the money for six months under the plan. The rest of the funds will be provided by Monterey, Pacific Grove, Carmel, Del Rey Oaks and Monterey County.

Last week, the city council rejected a proposed plan for providing the allocations. Under the plan, Seaside would have had to put up \$1,149 a month. The original plan, based on population, was rejected because 15,000 Fort Ord residents, who technically are in the city limits, but are not served by the bus company, were counted in Seaside's population.

After rejecting the original proposal, the city council passed a proposal of its own, which excluded those persons not served by the busses. This reduced Seaside's share of the funding.

Also part of the proposal of the city council last week was a condition that the company carry handicapped persons free of charge. However, the condition was not part of the final proposal that the council approved.

Following unanimous approval of the proposal, Supervisor Loren E. Smith, who was in the audience, rose and complimented the council on its actions.

Register Pre-Schoolers

Saint Barbara's pre-school registration is now in progress each day from 9 a.m. until 11:30 a.m.

Children age 2 1/2 to kindergarten age are welcome to school which opens September 5. There are openings for two or three day a week sessions.

For more information, call 384-7712 or 384-7341 or stop by the school at 249 Carmel Avenue, Marina.

A. E. 'Andy' Barragan, Publisher

By Clint Porter
(In the absence of Andy Barragan)

A.E. Barragan

I do my thing, and you do your thing. I am not in this world to live up to your expectations. And you are not in this world to live up to mine. You are you, and I am I. And if by chance we find each other, it's beautiful.

You know my boss, Andy is in the hospital, and it's the Santa Clara Medical Center in San Jose. He went up there Monday a week ago, on August 21st. On Thursday the 24th he was operated on twice, and he came through with flying colors. Much to the surprise of the staff. But you see, they don't know Andy. Nor do they know his capabilities. They know a little more about him now, of that you can be sure. It is sadly unfortunate that only those friends and relations of yours who are exceedingly close to you, realize the depths of your precious mind.

The section revealed to the outside world appears to be but phenomena underlying which there is a plan embodying the attributes of justice, order and love for which we instinctively seek; as ugly scaffolding might hide a perfectly beautiful tower.

But we still, in reality, must recognize the scaffolding as real, while it lasts, even though we are aware it is not permanent.

So the scaffolding was removed from around the beautiful tower that houses Andy's mind. The nurses, doctors, and other members of the staff reveled at the beauty emitted in the form

Today's Army

NEWS

By

SSG R. Cardwell
ARMY RECRUITER

Hi everybody. This week's article is about a Tough Job In A Rough World. Pigs! Fuss! Cops! Whatever they're called, today's law enforcement officers have their work cut out for them. It's rough work, but not without its own rewards. Thousands upon thousands continue to apply each year in small and large towns across the country.

Being a policeman is a lot more sophisticated than it was a decade ago. Today's policeman is backed up by a battery of modern laboratory and communications equipment. He has a broad range of computer services, laboratory equipment and scientific instruments working for him. Today's law enforcement positions are more professional, more demanding and far more rewarding than ever before. The one big difference between today's and yesterday's policeman is that today's must be better educated. Only the best qualified are encouraged to join.

Many young men and women high school graduates are finding the education and initial training they require in Today's Army as Military Policemen. Army policemen, like their counterparts, patrol designated areas, control pedestrian and vehicular traffic, quell disturbances and protect security sites. While learning their trade, they also get \$288 a month to start, free room and board and generous benefits, including medical and dental care and 30 days paid vacation yearly. Young soldiers who leave the Army with Military Police training and experience can usually be guaranteed an immediate job in many Police Departments. Their Army experience can also qualify them for the training programs offered in larger cities, where beginning salaries are over \$10,000 a year.

Today's policeman is trained to be more social conscious, more sensitive to the needs and desire of the public he serves. His job isn't just apprehending and arresting, it's also helping to alleviate troublesome situations before they lead to serious problems and to crime. Whether he be a civilian policeman or a military one, his job is a round-the-clock operation. Today's policemen are conscientious and dedicated to public safety. If you can qualify for the Military Police, it will be guaranteed to you before you enlist. If you are seeking a profession in Law Enforcement, the U.S. Army is the place to begin.

For more information concerning the Military Police Option, please contact us at 431-Webster St., Monterey, or call 372-4742/372-0553.

SHOW STYLES - Ruth Arnold and Diana, wife and daughter of Staff Sergeant Danila Arnold, were perfect models at Non-Commissioned Officers Wives Club's Mother-Daughter Fashion Show Wednesday evening, August 9. The wives and daughters wore fashions from 1920, featuring hoop skirt and parasol, to today's fashions of mini's, midi's and maxi's.

Receive Commendation

Three major commanders at Fort Ord have received official commendations for their efforts to encourage safe driving by members of their commands. The three commands, Headquarters Command, Second Brigade and Fourth Brigade, which together contain more than 10,000 men, completed the months of May and June with no military injuries caused by privately owned vehicle accidents.

Headquarters Command, commanded by Colonel A.F. Mitchell, had instituted a poster campaign earlier in the year to make the men safety conscious when driving. They also worked long and hard to get their men to use the safety belts in their automobiles.

The Second Brigade, commanded by Colonel H.H. Lee, and the Fourth Brigade, commanded by Colonel W.G. Walby, operated in about the same manner. They used the chain of command and duty supervisor's advice to educate the men in the value of safe driving. These brigades constantly prodded the men to drive with care.

CDR. Shultz Retires

Commander Phyllis L. Shultz, Administrative Officer for Programs at the Naval Postgraduate School since August 1970, will retire with 20 years naval service in informal ceremonies at the Navy school on August 31.

Upon retirement, Cdr. Shultz plans to take a cross-country vacation to the east coast and back and then travel to Europe, Australia, New Zealand and Alaska. When not traveling, she will reside in Monterey.

Noteworthy experiences listed by Cdr. Shultz during her naval career which started when commissioned ensign on August 26, 1952 include "Dependents' Project Officer for both Guantanamo Bay, Cuba Evacuation during the missile crisis in October 1962 and for the USS Pueblo incident from January to May 1968."

She received bachelors degrees in speech and education after attending Section Hill College in Pennsylvania and Otterbein College, Westerville, Ohio and received officer indoctrination in 1952 at the Naval Schools Command, Newport, R.I.

Her first assignment was as Education Officer at Naval Air Station, Patuxent River, Maryland, 1953-55. Cdr. Shultz then served tours at the Naval Recruiting Station, Pittsburgh, Pa.; Naval Air Station, An-

costia, D.C.; Naval Amphibious Base, Little Creek, Va.; and in the Bureau of Naval Personnel, which she completed in February 1966.

Cdr. Shultz then served a two-year tour as Administrative Officer and Assistant for Women for the Japanese Area Forces, Japan. She reported to the Navy school from

duties as Military Personnel Officer, Naval Ship's Systems Command Headquarters, Washington, D.C.

WAC Head Visits Fort Ord

Brigadier General Mildred C. Bailey, director of the Women's Army Corps, visited Ft. Ord and Presidio of Monterey August 16 and 17 to inspect the living conditions of her women, and to inform them of a new recruiting drive.

At a meeting of all WAC personnel, BrigGen. Bailey stated, "Until six weeks ago, since I have been the director from August of last year, everywhere I went I have been saying to our women, and to the public in general,

1. That the Women's Army Corps plans to increase its strength.

2. That we plan to go to approximately 9,500 more women in 1978. Our current strength is somewhere in the neighborhood of 13,000.

3. But that we wouldn't begin this for about two years. For that amount of time we would remain stable to plan housing, utilization, and training."

"Things changed. The Chief of Staff and the Secretary of the Army. How close can we come to this goal?"

"With much thought and consideration the Chief of Staff and the Secretary of the Army decided that we needed more women in the Army to help us meet this goal. We needed to open new fields to expand the scope of their utilization and to offer them greater opportunities. All this was now to be accomplished in 10 months instead of two years."

"The Women's Army Corps has not always had two missions. During World War II when we came into existence, we had one mission--to make available to the Army "woman power." To meet the Army's needs when W.W. II ended the military leaders asked congress to pass legislation per-

mitting them to keep women in the armed forces, and a second mission was then added.

"The Army didn't need a large number of women, and we still had the draft, but it did need a small nucleus of trained "women power on active duty around which to expand rapidly in the event of an emergency. So, for 30 years we have been training, and working with this secondary mission. Now we are going to implement that second mission."

"We had all assumed that this emergency, as it were, would revolve around an all-out national mobilization and a war-time effort. I'm very pleased that this is not the case."

"It is revolving around our need to get quality young men and women in the Army in numbers so that it can accom-

plish its mission and stop relying on the draft."

"We feel a reasonable for our expansion in this year is 3,500. This percentage of increase is quite a job, and in order to meet our recruiting goals we must do several things.

1. Intensify recruiting efforts.

2. Reorder the resources we already have in recruiting advertisement.

"Every enlistment option open to men are now open to women, to include overseas training and travel option." Until now, all women had to serve a minimum of one year in the Army before they were eligible for overseas duty. This is no longer the case. "We have unit and station of choice options.

Bruse W. Deane, son of retired U.S. Army Captain and Mrs. Lester C. Deane of Seaside, is one of more than 1,300 freshman cadets who have entered the U.S. Air Force Academy class of '76.

Cadet Deane qualified for final acceptance into the cadet wing by completing seven weeks of basic training that included physical conditioning, military and survival instruction and field training at a simulated frontline combat base located near the academy.

He is a member of the largest freshman class in the history of the academy, now in its 18th year of operation with a current total enrollment of

more than 4,000 cadets.

The cadet is enrolled in a four-year course of academic study and military training working toward a bachelor of science degree in one of 21 major fields of interest and a commission as a second lieutenant in the Air Force. Cadet Deane is a 1972 graduate of Robert Louis Stevenson High School, Pebble Beach, where he was valedictorian of his graduating class and lettered in water polo and swimming.

Stephen C. Campbell, son of retired Air Force Colonel and

Mrs. William A. Campbell of Monterey, is one of more than 1,300 freshman cadets who have entered the U.S. Air Force Academy class of '76.

Cadet Campbell qualified for final acceptance into the cadet wing by completing seven weeks of basic training that included physical conditioning, military and survival instruction and field training at a simulated frontline combat base located near the academy.

He is a member of the largest freshman class in the history of the academy, now in its 18th year of operation with a current total enrollment of more than 4,000 cadets.

The cadet is enrolled in a four-year course of academic study and military training working toward a bachelor of science degree in one of 21 major fields of interest and a

commission as a second lieutenant in the Air Force. Cadet Campbell completed a 10-month course of instruction at the Academy Preparatory School before receiving his appointment.

He is a 1971 graduate of Mitchell High School, Colorado Springs, Colo., where he lettered in football, wrestling and baseball.

Cadet John B. Nicks, 20, son of Lieutenant Colonel and Mrs. John G. Nicks of Ft. Ord, is receiving seven weeks of Army Orientation Training (AOT) with Company B of the 3D Brigades 5th Battalion at Ft. Ord.

Cadet Nicks, a student at the U.S. Military Academy, West Point, N.Y., is scheduled to complete this phase of his training soon.

AOT enables him to work with officers and enlisted men and gives him practical experience in the responsibilities and problems he will encounter as an Army officer.

Charlie A. Jones Jr., son of retired U.S. Army Sergeant First Class and Mrs. Charlie A. Jones Sr. of Seaside, is one of more than 1,300 freshman cadets who have entered the U.S. Air Force Academy class of '76.

Continued from Page 1

of determination he has to remain in our presence in order to finish a job that was started long ago. Andy is one of the few people who can truthfully say he has been to the mountain, and he has seen the Promised Land. And for a while he felt the rebirth. As he said, he was like some Joseph looking for a manger.

All my columns could be written about one man never repeating one phrase. But people aren't ready for that. Take this lesson from one whose eyes have seen the Glory:
"Never, never, never be afraid to die,
Your God will take care of you in the sky."

Gibran says: "Your fear of death is but the trembling of the shepherd when he stands before the king whose hand is to be laid upon him in honor. Is the shepherd not joyful beneath his trembling, that he shall wear the mark of the King? Yet, is he not more mindful of his trembling?"

The foregoing is from "The Prophet." And speaking of that wonderful book, there are some lovely people in the world - and in this city. In my column last week I mentioned that my copy of "The Prophet" had been mislaid. (Or did I use the word missing?) At any rate it was indeed gone. Thursday morning our Fire Chief, Mr. McNeill presented me with a hardback of the book. Before noon, I had received two more offers of the book. I graciously thanked them, but informed them that it had already been replaced. One lady promised to keep the copy she bought for me in case I lose mine again. And Friday I received two checks in the mail with no explanation at all. There is only love in this world. But this world is like the most complicated computer, you only receive from it what you put in.

During the Monterey County Fair two young boys came into the office and asked for a job so they could earn some extra money. I asked them what they could do around a newspaper office and they said they could do anything. I picked up a piece of copy and handed it to one of the boys and asked him to type it for me. He took it, but I soon discovered he didn't know how to put it in the typewriter. I asked him if there was anything else he could do. He said he wanted to become a reporter. They said they were going to the Fair anyway, so I told them to bring me back something they may find interesting to our readers.

Here is their report, I have labeled: "Boys on the Street." They asked a standard question, "How do you like the Fair?"

Roy Rogers says: "The fair was very good and the horses were great. The fair smelled good and he also loves the food."

Mr. Martin Davies says: "The fair was very good and the Judo was great."

William Mays says: "It's the best I've ever seen and been to. The food is excellent."

James Hicks says: "The fair is the best I've been to." He likes the Round-Up and the Roto, and he loves the food.

Jeff Hicks says: "The fair is fun." He likes the bumper cars, but he hates the ferris wheel and he loves the food.

James Petty and Roy Hamilton 8-11-72 And that is the report from our ACE REPORTERS. Who may someday have their names in bright lights as America's top correspondents. You have to start someplace. So they started at the SEASIDE POST - News Sentinel. They were paid for their efforts and left smiling, knowing they had accomplished their first assignment.

What greater joy is there than to watch the faces of two happy boys. With money in their hands, too?

Saturday Evening I took my daughter, Deborah, to the Ice Follies of 1973 in San Francisco. We arrived late, but I will give you a blow-by-blow description of the Follies next week. Be sure and remind me.

Incidentally, I just received a report that Andy is still improving. How much good news can a person take in one day? We love you beautiful people.

Progress is being achieved regarding our public transportation problem here on the Monterey Peninsula which I discussed in this column a few weeks ago and promised to keep you informed on future developments in our local Bus Transit System.

One unhappy picture was presented to the public by a recent Editorial in our local daily newspaper that gave the impression that officials of the Monterey Peninsula Cities had been dragging their feet on this very important problem. Nothing could be farther from the fact. It can easily be established that as soon as Bay Rapid Transit management made their financial operating losses known, two meetings were held at my request. These meetings were attended by representatives of all Peninsula Cities as well as County Officials and the actions taken at these meetings started the procedures for the formation of a Local Public Transit District. This action was taken several months ago. Unfortunately some of our political aspirants do not understand what is going on if we are to take seriously comments which are being made over some of the news media.

The Bay Rapid Transit Company agreed several months ago that they would continue to operate and absorb their operating losses for a reasonable time to allow formation of a Public Transit System which could obtain most of its financing under State law enacted by a bill known as SB-325. Assemblyman Bob Wood and Senator Donald Grunsky drew up a special bill known as AB-629 which would allow formation of a Monterey County Public Transit District. As AB-629 began its way thru the legislative procedures and the Transportation Committee, certain amendments were attached which could not be accepted by legal counsel of either the Cities involved or the County of Monterey. Assemblyman Wood and Senator Grunsky have agreed to seek amendments in the old bill or introduce a new one as soon as the legislative reconvenes.

Facing this further delay the Bay Rapid Transit Company advised the Cities involved that they could not continue to operate any longer without a \$3,000 monthly subsidy. Meetings have been held by all parties involved for the past 3 weeks to work out compromises that have tentatively been approved and it is a pleasure to be able to report that both the City of Seaside and the County of Monterey have officially accepted their proposed allocation of the necessary subsidy. All other Cities are expected to ratify their allocations as indicated. This action will keep the busses running for 6 months. During this short period a Joint Powers arrangement that is presently in the process of being formed will carry on the business of developing a Public Transit District to take over the local Bus Transportation to adequately serve the entire Monterey Peninsula.

As I See It

BY MEL VERCOE

Cecil B. DeMille put on some real shows, but none of them were even in the same league with the recent Republican convention. Nothing was left out. Sammy Davis, Jr. with his unbuttoned shirt, Richard Nixon trying to imitate Johnny Carson, and if you looked closely enough you could see a halo over Spiro Agnew's head as they discussed the extreme likelihood of his taking over from Nixon in 1976.

With just 68 thinking days left until the election voters will in general follow three courses. Some will exercise their Constitutional right to enjoy life without being concerned in any way about politics or who is running for what. Others will make half-hearted attempts to believe what they want to believe without digging deep enough to find out whether it is true or not. And the third group will go out of their way to try to sift a small amount of truth out of several thousand tons of rather unbelievable rhetoric, most of it lighter than air.

The Republicans are betting, probably correctly, that not many American voters will fall within the latter category.

The Democrats are in an uphill fight all the way. They have

taken a very unpopular position opposing the Vietnam war, and therefore have lost the votes of the thousands of Democrats who see nothing wrong with a war that means continuing business profits, etcetera. Considering that we are, whether we want to believe it or not, a pro-war country inhabited largely by pro-war people who make very peaceful noises in public but make very warlike marks on ballots behind election booth curtains, the Democrats would have stood a better chance being in favor of the war.

There were two very interesting sidelights to the conventions. Prostitutes had converged on Miami Beach from all over the United States, not for political purposes. They did much better financially with the Republicans than with the Democrats, because the Republicans had more money, better hotel rooms per capita, and didn't stay up all night talking politics until they were too tired to think of anything else.

The other interesting point was that the Republicans made no attempt to liberalize their position on the war in order to attract more young voters. They merely intensified their contention that continued support for Saigon has something to do with "fasting peace" and will somehow help our prisoners of war, all of which reminds us slightly of the Hitler "big lie technique" based on the correct assumption that if you keep hammering a point home hard enough and long enough, no matter how absurd it is, pretty soon quite a few people will accept it as fact.

Let us help you. We listen. 24 hrs. WE CARE. We're Free. Suicide Prevention Center 373-0713.

Your Mayor Reports

Joe Dolan

SURPLUS SCHOOL PROPERTY

Cooperation and communication are essential factors to creating understanding. In July, the City was informed that 1-1/2 acres of the Del Rey Woods School playground area would be put up for sale by auction to the highest bidder with the bids to be received and opened on August 21, 1972. The entire amount of \$22,860 would have to be paid in full within thirty (30) days. Unfortunately, that time frame would not enable the City to set aside the cash necessary to save this irreplaceable Open Space.

Mr. Allan J. Petersdorf, Superintendent, Monterey Peninsula Unified School District, requested a conference with your City Officials on Monday, August 14, 1972. As a result of the conference, we learned that we could extend the time to pay for the Del Rey Woods School surplus property over a much longer period than initially indicated in July.

The following letter, dated August 23, 1972 was transmitted to Monterey Peninsula Unified School District.

Dear Mr. Petersdorf: In confirmation of our phone conversation, the Seaside City Council at its regular meeting, August 17, did take formal action committing this City to purchase the surplus Del Rey Woods property (Parcel III - \$22,860 as contained in your bid advertisement) located at the corner of Noche Buena and Kimball.

It is my understanding that with this commitment from a public agency we will have first priority on your sale. As indicated to you, our financing is related to our own sale of other City-owned property which is surplus to our needs, the proceeds of which will largely offset your sale price. Please understand that this financing plan in no way affects our commitment to you other than introduce a timing factor on actual submittal of cash.

We understand that you will allow payment at any time within this fiscal year and we are prepared to meet that requirement. Hopefully we will conclude our transaction shortly

and be able to close with you at an early date.

Please advise me if you have any questions on this commitment and these understandings. Also, advise us if there are any other procedural matters at this time in guaranteeing the subject property for municipal use. Thank you very much for your cooperation.

Sincerely,
DUDLEY N. LAPHAM
City Manager

At this point, I want to express my appreciation to our City Council, all of our concerned citizens who contacted me regarding saving this Open Space for their children, and special thanks to Dr. Donald S. Reber, who resides on Tweed, Dr. Reber volunteered to initiate a petition to save that playground area as Open Space for the community.

We would also be remiss if we didn't thank Mr. Petersdorf. I am grateful that he took the time to discuss the matter with us. Cooperation and communication are very essential to resolving problems in our community and the entire Monterey Peninsula.

REMINDER: RED CROSS BLOODMOBILE WILL BE AT FIRE STATION ON THURSDAY, SEPTEMBER 7, 1972, Y'ALL COME!

Job Openings

With their fall season approaching, CTE/McGraw-Hill, an Equal Opportunity Employer, will be administering a short Clerical Facility Test to applicants on Thursday mornings beginning August 31, 1972, at 10:30 a.m.

Persons interested in applying for Seasonal Scoring work should plan to take the test, the results of which establishes eligibility for hire.

Specific information about the work will be given during the testing session. Due to limited testing facilities please have applicants contact our receptionist for a test date. Applications for employment will be available at the reception desk.

There is presently an opening for a Technical Typist. HIRING RANGE \$5,856-\$7,020 per year. Persons interested should apply at reception desk or forward resume to CTE/McGraw-Hill, Del Monte Research Park, Monterey, California, c/o Personnel Services.

This is to introduce Officer Adams.

Officer Adams is 25 years old, a native of Southern California. His wife is Noreen. They have one son, Owen, who is 5 years old. The Adams Family bought their home and live in the city of Seaside.

Officer Adams graduated from Verdugo High School in Los Angeles in 1965. He then attended Los Angeles Valley College until 1966, at which time he joined the U.S. Army and served with them until 1969. During his tour with the Armed Forces, he served in Vietnam with the 101st Airborne. After receiving an honorable discharge from the U.S. Army, he enlisted with the City of Seaside as a police officer on May 16, 1969.

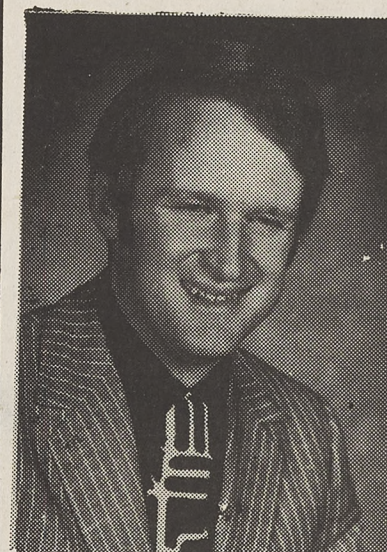

Not only is Officer Adams a full time Police Officer, he once again returned to night school at MPC to continue his education.

During his employ with the city he was given the honor of being selected as Officer of the Month for January 1971 by The Monterey County Peace Officers Association, for his exemplary attitude and professional manner with which he conducts himself.

Mission: Possible

The name of the Lutheran ministry to the "counter culture" of the Monterey Peninsula is "Mission: Possible."

The name signifies two things. First, it means "mission"—Christ's mission of reconciliation to the world. Secondly, it implies that such a mission of love is possible, even among youth who are turned off to the traditional church.

It is possible because, while youth do not relate well to the church today, they can relate to the historical Jesus, not the escapist Jesus of the Jesus Freak movement, but the Jesus who spoke to man's basic needs: love, peace and justice.

Not only was Jesus perhaps the greatest source of such ideals which youth take to be all important today, but he led a life that youth can find complementary to their new style of living. Jesus was not interested in wealth, but renounced it, knowing true happiness can not be had with money and possessions but may only be found within oneself, where the Spirit of God resides. He was not interested in private property or suburban living. He was, like many youth today, a transient without home or property. "The Son of man has nowhere to lay his head."

And Jesus' philosophy is complimentary to the present youthful ideal of speaking out against oppression both political and spiritual.

This is the Jesus who is presented at the House of the Rising Son in Monterey, a half-way house for those who do not accept the traditional answers of middle class America, and who are searching for a deeper meaning in life. These particular youth have been in one kind of trouble or another, usually with the law. In nearly all cases it is because of the home environment in which they were brought up: homes where they did not learn love because their parents did not love them; where they did not learn trust because their parents did not trust them; where they did not learn compassion, because their parents beat them and told them they were "no good."

At House of the Rising Son, all this is changed. Minds are re-programmed toward love and self-acceptance. The spiritual seed of love for God and for man is sown, that it may gradually grow to fruition even in a world which emphasizes hate and violence.

We have found at the house that the greatest lack these youth have is one of faith and hope. In their prior environment they had not realized the concept of faith, faith in themselves; faith that even though the world looks to be in bad shape at present, that God is gradually moving it towards perfection. When a person finally has this faith within himself, that there is an all-knowing power working within the universe, he begins to see meaning in his own life, and even in the tragedies of the world. He can then have hope for his future, and for the world's. He has within himself, then, the calm assurance that, as St. Paul put it, "All

'Wheelchair Home' Grants Increased

A boost of \$5,000 in grants for the purchase of "wheelchair homes" by eligible disabled veterans is the second hike in this program in three years. J.E. Mullen, Director of the San Francisco VA Regional Office, reported today.

Effective July 10, when it was signed by the President, Public Law 92-341 authorized VA to pay fifty percent of the cost -- up to a limit of \$17,500 -- toward the purchase, construction or re-modeling of homes for veterans whose service-connected disabilities cause them to need wheelchair ramps, hand rails and other special features especially adapted to their needs.

The grants were limited to \$10,000 when the program was started in 1948, and were raised to \$12,500 in June 1969.

J.E. Mullen said 460 veterans in Northern California are now living in these special homes the VA helps them buy.

More than 12,000 American veterans have received grants under the program during its 24-year history, for a total of \$121 million. During fiscal year 1972, 564 grants were made for a total of \$6.9 million.

Additional information on the wheelchair home grants is available at all VA offices and from veterans service organizations.

things work together for the good."

When a youth has gained this perspective he will not seek the escape of drugs, or superficial religion, nor resort to violence out of frustration and despair, but rather will become productive in society. Not productive in the typical sense of earning loads of money, or oiling the corporate machine, but productive in working for the creation of a better world. He can do so with the assurance that, in time, it will surely come about, with the assurance that there is, indeed, a "master plan" for the evolution of mankind, and that that evolution is essentially a spiritual one.

We, at the House, believe this

mission is indeed possible, for even in our short existence we have seen it happening. We have seen young people change. Not one youth who has lived with us for any length of time has ever been in trouble with the law or drugs since. Most are now employed, and doing well at their jobs, gradually getting their lives in order, that when they leave here they can take care of themselves.

Nearly all the youth who have come to us have been high school drop-outs. This fall all of them have decided to return to school, not with the feeling that our present educational system is the best, but with the knowledge that there are things in life which must be done in order to get what one wants from life.

Even after two thousand years it is still being proven that mission to the world is indeed possible.

OBITUARIES

THOMAS MILON
COGSWELL LCDR

THOMAS M. COGSWELL of Monterey, August 19, 1972. Beloved husband of Katherine Cogswell of Monterey; loving father of Kristina, Thomas and Miles Cogswell of Monterey. A native of Erie, Pennsylvania, age 32 years. LCDR CGCOWELL was a student at the Naval Postgraduate School for the past two years. GUTEN APPETITE
GERDA OF MECCA DELICATESSEN

CHICKEN BREAST IN CREAM

AMERICAN love chicken prepared in every way and this recipe added to your chicken repertory makes a simple and delightful dish.

2 whole chicken breasts (about 2 pounds);
3 teaspoons fat;
1/3 cup chopped onion;
1 small clove garlic, minced;
3/4 cup chicken broth;
3/4 cup cream;
1-1/2 teaspoons salt;
1/4 teaspoon black pepper;
2 teaspoons Worcestershire sauce;
1/4 cup cooking sherry (optional);

Heat oven to 300 degrees F. Cut the chicken breasts in two, making four serving pieces. Brown the breasts in the fat until golden brown. Heat onions, garlic, broth, cream, seasonings and sherry in saucepan. Put chicken pieces in roaster and pour sauce over them. Cover and bake from 15 to 20 minutes more. Remove chicken from pan, keeping it warm while making gravy from drippings. Serves four.

Roberta Flack-Quincy Jones At Monterey Jazz Festival

Final concert of the Fifteenth Annual Monterey Jazz Festival has been announced. Scheduled for the Sunday evening, September 17 concert on the Monterey County Fairgrounds in the Roberta Flack-Quincy Jones All-Star Show. Jazz song stylist, Roberta Flack will be joined by Quincy Jones Band which will feature a group of major jazz performers including Bobby Bryant on trumpet and Ray Brown on bass.

Also as special guests on the show will be Monterey favorite, Dizzy Gillespie, and the Cal Tjader Quintet with Timbalas artist, Willie Bobo.

The Festival is set for September 15, 16, 17 and consists of five concerts, Friday, Saturday and Sunday evenings and Saturday and Sunday afternoons. The event is held in the 7000-seat outdoor arena on the fairgrounds.

A number of other artists have already been announced. They are: Stan Kenton and his Orchestra, the Modern Jazz Quartet, Laurindo Almeida, the Elvin Jones Quartet, Herbie Hancock Septet and the Sonny Rollins Quartet.

This year will mark Roberta's second appearance at the Monterey Jazz Festival. The first was in 1969 in a Saturday afternoon concert, when relatively unknown she proved such a success that she was brought back to sing and play piano during the evening concert.

One of the most famous leaders and composers and arrangers in popular music today, Quincy Jones is in heavy demand to write and score motion pictures and television shows with jazz backgrounds. He first appeared at the Monterey Jazz Festival in 1962 with an all-star orchestra.

Dizzy Gillespie is, of course, the world-famous jazz trumpet virtuoso.

Cal Tjader has played his vibes many times at the Monterey Jazz Festival. He has fronted a series of fine, small combos in recent years and earlier performed with Dave Brubeck and his groups as well as with George Shearing.

Other artists for the Monterey Jazz Festival will be announced shortly according to Festival founder and general manager, Jimmy Lyons.

Tickets for the evening concerts, now available, are \$6 and \$5. For afternoon concerts they are \$5 and \$4.

Tickets are available at The Record Cove in Monterey; The Record Cove and Carmel Music in Carmel; Gadsby's Music in Salinas.

Jean Wilsdon has exhibited at all of the competitive exhibits in the area, including the Monterey County Fair Art Exhibit, 1971, 1969, 1968, 1967, 1964, 1963; Monterey Peninsula Museum of Art, Monterey County Annual Competitive, 1970, 1972; Pacific Grove Art Centers Northern California Painting Annual, 1972; Religious Art Show, N.P.G.S., Monterey, 1970, 1969; San Juan Bautista Annual Competitive, 1969; Jazz Festival Art Show, 1968, 1965; Pacific Grove Watercolor Competitive, 1968; and the Religious Art Show, Carmel in 1966. She won third prize in Contemporary Watercolor at the Monterey County Fair in 1968 and first prize in sculpture at the Monterey County Competitive in 1972.

Mrs. Wilsdon has had one women shows at the Holbrook-Palmer Center in Atherton in 1970 and at the Ardvard Gallery in Carmel Valley in 1969.

In 1971, she was part of a three woman show at the Pacific Grove Art Center, and she is planning another show at the Village Artistry this fall. Her work will also be seen at the Seaside City Hall next year.

TWO-WHEELER
ACCIDENTS

In France two-wheeled vehicles have the majority of traffic accidents.

DRESS IT UP - It almost looked like party at C-2-2's messhall when U.S. Army Food Management Team IV demonstrated how to make salads more appealing to troops. (From left) MSGT Richard Martin, SGM Carl Peterson, MSGT Lloyd Wickert and CW2 Gerald Phillips showed just what could be done with plain, ordinary Army subsistence.

Artichoke Festival

The big event for the Artichoke Center of the World is coming soon. King Artichoke will be celebrated with all the pomp and splendor as has been done in past years.

The International Dinner and Hat Show on Friday, September 8, 1972, has been cut off this year. It will only be the Official Queen Contest Ballot scheduled at 10 P.M. Winner of the Contest will be officially crowned Queen. Miss Castroville Artichoke Festival 1972-73, on Saturday at the Coronation Ball.

The Coronation Ball is scheduled at 10 P.M., Saturday, at which time the Conte Four Orchestra will play for the affair.

For Sunday, there will still be the Concessions for everybody's enjoyment. Another feature attraction for the same day is the Flea Market. The Pancake Breakfast, headed by Richard Haro, will be handled by the Kiwanis Club.

The Barbecue will be served immediately after the Parade. There will be entertainment, dancing and music galore after the Parade. Dancing will be from 2-6 p.m.

Awarding of prizes to winning Parade participants will be given after the Parade. Trophies will be awarded to the Horse Division instead of Ribbons as has been listed in the Entry Blanks.

Switch to program accounting seen

The Monterey Peninsula Unified School District's business office will begin making a transition to a new cost accounting system in 1972-73. The new system should provide more meaningful information to the school board and the public about how educational tax dollars are being used.

Currently the district, along with other school systems in the state, uses a traditional method of budgeting which shows income and expenditure totals by category. For example, the administrative classification is broken into certificated salaries, classified salaries and "other expenses." The only figures available represent total amounts, and the budget does not indicate how the money is distributed within each classification. It does not show, for example, how much administration of reading program, or a science program, costs.

A program accounting system, as the name implies, is designed to tell more exactly what a specific program costs. And that is the direction in which the district's business department will begin moving in the coming year. Actually, the district has been required for some time to employ program accounting techniques in writing

budgets for special educational projects supported by federal funds. The federal government has required program budgeting as a means of making certain money is being spent in the way it should be.

California's legislators have been seeking to adopt a similar means of fiscal accountability for school monies for several years. School business officials have worked to design a new accounting manual using program accounting methods, and the state at one point had ordered all school districts to be ready to use the new procedures by July 1, 1973. But inauguration of the new system was contingent upon adoption of the new accounting manual by the State Board of Education. The state board did not adopt the procedures, and in failing to do so pushed the starting date back by at least a year. In addition, there is currently a move in Sacramento away from the Planning, Programming, Budgeting System (PPBS), of which program accounting is a part.

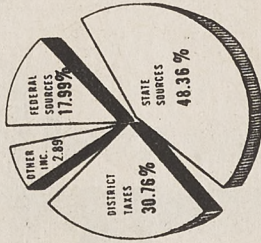

Despite the failure of the state to officially act on a new accounting procedure, and the possibility that PPBS will be junked, Monterey Peninsula Unified School District business officials are committed to converting to a program ac-

counting system, as a means of improving fiscal accountability.

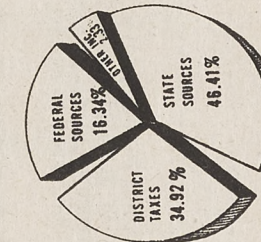

Behind the idea of program accounting as it pertains to education, is the intent to relate all budgeted money to the district's educational program. In other words, the district will begin designing a budget that will show more exactly how much it costs to teach reading, mathematics, and other subjects covered in the schools. Instead of lumping the total costs of teachers' salaries together in the budget, the program accounting method will provide a breakdown on what the district is actually spending to teach a subject -- from salaries for teachers and administrators to materials to other related expenses.

Still to be worked out is the problem of relating indirect overhead costs to educational programs. But even without indirect costs being pro-rated, the public -- and school officials themselves -- will have a better idea of how public money is being spent. The information will also help educators make better decisions about how limited finances can be used. Additional efforts toward the conversion to program accounting in 1972-73 will be limited to breaking down direct costs of educational programs.

Where your dollar goes (1971-72)

Where your dollar goes (1972-73)

TEACHER INVOLVEMENT is vital to the success of the Monterey Appraisal Project (MAP) in the Monterey Peninsula Unified School District. Here, district reading teachers are contributing to the project during a day-long inservice program held at Seaside High School last spring. MAP is an attempt to systematically determine what a child is expected to learn and the sequence in which he normally learns it. It is designed to help students attain learning objectives in a step-by-step manner, mastering simple skills that will help them, in turn, master more difficult skills. The district's basic mathematics and reading programs have been "mapped" and the new system is ready for us in the 1972-73 school year.

Answering the Public

Major thrust is accountability

Striving to be accountable, not only in terms of financial expenditures, but, perhaps more importantly, in terms of educational program. The concept of accountability has been a major force in education in California for several years. Legislators have been insisting that a highly refined means be found of showing exactly how tax dollars are being used in school districts all over the state. Legislators and educators, as also struggling to find more meaningful ways of measuring educational progress.

In the Monterey Peninsula Unified School District, efforts are three-pronged: the business division is in a process of transition from the traditional line budget to a program accounting method designed to

Continued on page 14

PTA helps schools set education goals

To serve a community well, a school system must know what the community expects of it.

In 1971, citizens of the community helped the Monterey Peninsula Unified School District Board of Education establish a series of broad educational goals. Last spring, the school district asked its Parent Teacher Association to help in reassessing those goals, and making them more specific. A series of meetings was held, and the results of the meetings will be presented to the school board during 1972-73.

One broad goal established in 1971 was "to acquire the basic communication and mathematics skills needed by all for daily living plus those additional

Continued on page 14

State revises evaluation law

This year for the first time, actual student progress in the classroom will be a vital factor in evaluating the competency of both teachers and certificated administrators in California. The Stull bill, adopted by the state legislature in 1971 and named after author Assemblyman John Stull, requires all school districts in California to prepare new, standardized guidelines for personnel evaluation. Besides requiring evaluation to be done progress, the new legislation features evaluation to be completed in terms of established standards, other duties, classroom control and presser, and a "suitable learning environment."

MAP tells

story of curriculum

Although school systems have been around for a long time, little has been done anywhere about systematically determining what a child is expected to learn and the sequence in which he normally learns it. The new evaluation procedures have a great deal to do with accountability. They not only make teachers accountable for the amount of learning that goes on in their classrooms, but they pin down responsibilities of all certificated employees--from counselors to principals to central office administrators--in helping to bring about the learning.

The school district has prepared "role documents" for every certificated position in the system, from teachers to superintendent. Each document describes how each job is related to each of the four basic areas of the curriculum set down by the Stull bill.

This "map," looking much like a schematic of a circuit, defines what a student is expected to learn in each subject, and the sequence in which that learning probably should take place. Sequencing the learnings means simply that skills are placed, one after the other, according to their relative difficulty, so that a student will move in an orderly way from simple to more complex skills. But another way, the "map," shows not only what a student is expected to learn, but what skills must be taught to achieve that learning.

"Maps" for both reading and mathematics are ready to be used in 1972-73, and during the year similar work will proceed in basic language arts, social studies and other subjects. The curriculum "maps" will, through testing and other

Many needs are filled

from traditional schooling. Classes are held for students with visual handicaps, educational handicaps and emotional handicaps. The district also offers a program for educable mentally retarded children.

For students with extended illnesses, home teachers are provided. Students with attendance or other problems, who are too young to enroll in the district's continuation high school, can participate in a Summer Camp program (formerly called Open Classes). Cypress Continuation High School offers students who have been unable to function well in a regular school, or who have job commitments, to obtain high school diplomas. The district operates pre-

Mary Ellen / Social Editor

DEDICATION

Sjaun Eugene Woods, seven week old son of Mr. and Mrs. Harry J. Woods of Berkeley, was dedicated during his christening on Sunday, August 8. Rev. Richard Nance, Jr., Pastor of the First Baptist Church, Pacific Grove, officiated during the eleven a.m. worship service.

Sjaun's maternal Great Great grandfather, the late Rev. William Henry Guyton, was the first pastor of the First Baptist Church in Pacific Grove, years before this baby's maternal grandmother, Mrs. Mary Ellen Harris of Seaside, was born, and pastored many years after her birth.

Godparents accepting their responsibilities were CSM and Mrs. Wilbert Hopkins and SFC-7 and Mrs. Willie Evans, all of Seaside. CSM Hopkins is presently serving a tour of duty at Fort Lewis, Washington, while SFC Evans is soldiering at Fort Ord.

Approximately fifty guests attended an elaborate reception immediately following church services at the home of Sgt and Mrs. Evans. Tasty hors d'oeuvres and delicious foods were prepared by Mrs. Lloyd Brannon of Seaside. The huge cake was beautifully decorated in yellow, blue and green flowers, with a baby in the center of cradle of icing and worded "God Bless you on Your Christening Day Sjaun."

Four teenagers, Sheryl Delaney, Kevin Parker, Gail McClain and Edna Robinson served as hostesses. They looked very pretty in their floor length hostess gowns while greeting guests, accepting gifts and in-charge of guest book. These lovely young ladies sung several well chosen songs. One they wrote the words and dedicated to Sjaun.

Sjaun's paternal grandmothe, Mrs. Harrie Woods of St. Augustine, Florida, provided him with his complete christening outfit. He also has two aunts, uncles and a cousin in Florida: Mr. and Mrs. Frank Woods and their daughter, Joya of St. Augustine, and Mr. and Mrs. Eugene Woods of Fort Lauderdale. His paternal aunt, uncle and cousin, CPT, and Mrs. James Ross and Stephon reside in Seaside.

Sjaun's mother is an only child. However, he has a great aunt, Mrs. Edna Crosby of McLean, Virginia, and a great uncle and aunt, Mr. and Mrs. James O. McElroy and their children, James Eldridge and Connie Estelle McElroy of Phoenix, Arizona. Mrs. France Long, a resident of the peninsula more than fifty years, and a member of Friendship Baptist Church in Seaside, is his maternal Great Great Aunt.

VISITORS ON THE PENINSULA

MSG. and Mrs. Ted Cunningham of Seaside were delighted to have had a visit from Mrs. Cunningham's mother, Mrs. Evelyn Robinson, her sister, Mrs. Irmatine James and her daughter, Evelyn Joy, her niece, Kim and nephews, Marvin and Phillip Barber, all of Gary, Indiana.

The first trip to the Monterey Peninsula and California, was a gift from Mrs. James' husband, Bennett, for her achievements in completing studies towards and being awarded a Master of Arts Degree. She is presently an elementary teacher with the Gary School System.

Mrs. James and the children spent two glorious weeks in July, sightseeing, shopping, motoring down the beautiful awesome coastal route towards Big Sur, touring Carmel and Pebble Beach. They also went to Frontier Village in San Jose, and Marine World in Redwood City.

Mrs. Robinson arrived June 4 to attend the graduations of her grandsons. Michael Cunningham graduated from Monterey Peninsula College, where he received an AA Degree. He attended UCSC this summer and will attend San Jose State University this fall. His major is business administration. Rufus Cunningham graduated from Seaside High School. He will attend Monterey Peninsula College this fall. Mrs. Robinson returned to Gary August 26.

Also visiting yours truly from Gary, Indiana, were LTC (Ret) and Mrs. Sylvester Bly, formerly of Fort Ord and Seaside. The Blys flew to Los Angeles for a reunion with family and friends. They took time to motor to the Peninsula with Mrs. Vallie Blackburn of Los Angeles, for an appreciated weekend visit. Since the Blys last stay in this area (1959), they were amazed to see the beautiful changes and are seriously thinking of returning to Seaside to live.

While here, a cocktail party was given in their honor. They had the opportunity to see friends of yesterday: the Oscar Lawsons, Mable William, Mr. and Mrs. W. Evans, Mr. and Mrs. R. Woodie, Mr. and Mrs. W. Hopkins, all of Seaside; Delores Hunter of Marina; Gladys Ivy of Oakland and many more. The Blys also visited with the Ted Cunninghams. Mrs. Irmatine James is their next door neighbor.

CSM and Mrs. Wilbert Hopkins invited Syl and Lou Bly, Mrs. Blackburn and a few guests to a delicious brunch prior to their departing for L.A. on Sunday, July 27. The Blys have three sons and three grandchildren, all of Gary.

Mrs. Suzette Bailey of Monterey was more than pleased to have had a two week visit from her sister, Mrs. Gloria Dunham of Fort San Houston, Texas, formerly of Seaside. SFC, Harold Dunham is stationed at Brooke General Hospital; working in the pharmacy.

HAVE BIG TIME - Members of Monterey Boys' Club were guests at Big Sur Friendship Camp for week end of August 18. Thirty three boys and members of Monterey Peninsula Jaycees shared in fun and scheduled activities for weekend. Group was headed by John Kellar, president and Rob Wellington, project chairman.

Learn More About EKGs

A medical diagnostic device which has been in use safely for seventy years is still feared by many people. The Central Mission Trails Heart Association has noted that in 1903 the Dutch scientist Willem Einthoven established the science of electrocardiography by devising a system for recording the electrical action of the heart.

Yet people still have misconceptions about the EKG, how it is taken and what it shows. The Heart Association offers the following explanation and assurances:

"The besting heart generates tiny electrical impulses with each beat. The electrocardiograph measures and records this electrical current on a moving strip of paper. It does NOT send electricity into the body."

The trained physician gets important information by interpreting the zigzag pattern of the electrocardiogram. This test is especially useful to the doctor after a patient has had a heart attack. The doctor can

learn from the electrocardiogram where the heart muscle is damaged and how widespread the damage is."

The Heart people have an easy-to-understand pamphlet which tells about the EKG and other diagnostic tests used by heart doctors. If you would like a copy write to the Central Mission Trails Heart Association, 541-A South Main Street, Salinas, Cal. 93901. Ask for "How the Doctor Examines Your Heart."

County Gets State Funds

Welfare Director Robert B. Carlson announced that his department has released to the counties the \$10.6 million state share of the Homemaker/Attendant Program funding for the first half of fiscal year 1972-73.

Homemakers and attendants are people paid to furnish care without which a welfare recipient would not be able to continue to live in his own home. Monterey County's share was \$31,469.

Nissan Ship Completes First Trip

Completing her maiden voyage this month, the Suruga Maru arrived at Nissan's D.A.S. facility (Distribution and Auto Service) in the Port of Los Angeles.

With a total capacity of 2,530 vehicles, the Suruga Maru's maiden voyage began on July 19 from Nissan's Hommoku Wharf in Yokohama Harbor, Japan. After a brief stop-over in Vancouver, B.C. Canada where some 1,000 cars were unloaded, the ship sailed down the coast to Los Angeles. Owned by the Showa Shipping Co. and operated by the Nissan Motor Car Carrier Co., Ltd., the Suruga Maru weighs in at 7,016 tons, measures 573 feet from bow to stern and has a width of 83 feet and depth of 62 feet.

The Suruga Maru is the tenth auto-transport ship in the Nissan Motor Co. Ltd.'s fleet of specially designed and built vessels and is the second of a new design. The Suruga Maru's sister ship, the Tama Maru, completed her maiden voyage on March 21st of this year.

The two vessels, unlike Nissan's eight others, are specially designed and allow only for the carrying of automobiles from Nissan's Hommoku Wharf to ports in the United States and Canada. The Suruga Maru, like her sister ship, will be returning to Japan each trip at full speed, unhampered by cargo while other Nissan auto transports return with such bulk cargos as coal and grain.

The Suruga Maru is specially designed with elevators for loading and unloading its nine car carrying decks. The elevator system makes it possible for all the cars to be driven on and off the ship by means of ramps which greatly speeds the overall process.

Completed on June 12, 1972 at the Hitachi Ship Yards in Maizuru, Japan, the \$7 million Suruga Maru is manned by a crew of 26 and is captained by T. Yamamoto. Power is provided by a 12,400 HP Hitachi diesel engine which enables the massive vessel to cruise fully-loaded at 20.29 knots.

With the commissioning of the 2,530-car Suruga Maru, the Nissan Motor Co. Ltd.'s auto transport fleet swells to ten ships: four with 1,900-car capacities (Tochigi Maru, Hiratsuka Maru, Nissan Maru, and Kanagawa Maru); four with 1,200-car capacities (Hommoku Maru, Bluebird Maru, Oppama Maru and Zama Maru); and the Suruga Maru's sister ship, the Tama Maru. Nissan also utilizes several other auto transport ships, under special lease to the Nissan Motor Co., Ltd., to help meet America's growing demand for Datsuns.

Orientation At Monterey High Planned

About 700 new high school students will gather at Monterey High School this week for welcome and orientation sessions.

Counselor Dan Tarallo announced that incoming sophomores from Colton Junior High have been invited to a program from 9:30 to 11:30 a.m. on Thursday, August 31.

The incoming students will receive information about the high school's modular schedule, be informed about student activities and first day of school procedures. They will be introduced to counselors, school administrators and student leaders, and be taken on a tour of the campus, Tarallo said.

Participating students will be bused to the campus. Bus schedules have been mailed to their homes, he said.

Seaside High School's counseling office has mailed students their program outlines, and has invited students with questions to contact the counseling office at 649-7426. Orientation for incoming students was provided last spring.

Classes at schools throughout the Monterey Peninsula Unified School District will begin September 5.

FREEWAY DRIVING

On entering a freeway, drivers should attempt to merge at the same speed as the other traffic traveling that freeway, advises the National Automobile Club.

Test Show VW Beetles Superior

Volkswagen Beetles clearly beat all competition for reliability and durability after one to six years of operation, according to recently published test results on 1,250,000 cars by TÜV, the German government's official vehicle inspection service. A total of 27 items were checked on each car, in-

cluding lights, brakes, suspension and steering.

In TÜV tests of one, three and five-year old cars, Beetles averaged the fewest defects of each age class. Volkswagen fared similar excellent scores on tests recently conducted by the Swedish official testing agency, Svensk Bilprovning.

According to the German test results, 62.5 percent of Beetles tested when they were between one and two years old, showed no defects during the inspection procedure. This compared with 52.4 percent for the Opel Kadett, 46.4 percent for the Renault 16, and 30.6 percent for the Fiat 850.

For cars between three and

four years old, the Beetle once again led the list with 51.6 percent "no defects." The Opel's showing was 37.4 percent, 38.2 percent for the Renault and 25.6 percent for the Fiat.

For autos between five and six years of age, the scores were 33.3 percent for the Beetle, 25.0 percent for the Opel, 18.0 percent for the Fiat with no score available for the Renault.

Jobs For Students Still Needed

This summer 540 Monterey Peninsula young people registered with the non-profit Student Employment Service for work, but only 485 job openings were filled, SES President Russell Hansen said there always are more students than jobs, although many youth, age 16-22, need money for school clothes and other expenses. He encourages prospective employers to telephone 373-0143 to hire a student, if only for a few hours.

The highest number of students registered for work are from Seaside, 204. Next highest is Monterey with 106. Other communities include Carmel, 34; Carmel Valley; Del Rey Oaks 3; Fort Ord 53; Marina

59; Pacific Grove 56, and Pebble Beach 16. Hansen said that most job orders are placed in Monterey, which means that students from Seaside may have a transportation problem.

Kinds of work students can do include substitution for regular employees on vacation, assisting in restaurant and shops, office work, garden work, help with laundry, ironing, dishes and looking after children or pets.

The advantage to students

IN THE TOP TEN California ranks seventh in the nation in cattle production, and fourth in the production of top grain-fed cattle, according to U.S. Department of Agriculture statistics.

of being hired through SES is that young people can build up a work record for future reference.

Students re-register in September for after-school, weekend, and holiday work.

Silent Film

Treat at

Sunset Center

Famed silent film organist, John Thomas, returns to the Monterey Peninsula in a selected engagement of "WINGS," the motion picture that won the first Academy Award in 1927. Mr. Thomas was the premiere organist for the attraction which stars Clara Bow, Charles "Buddy" Rogers, Gary Cooper and Richard Arlen.

The celebrated World War I flying story bows at the Sunset Center Theatre for one week commencing September 13, where a special Rodgers Theatre Organ especially voiced for this theatre will be installed. The engagement represents one of only a very few that Mr. Thomas plays each year. The show is scheduled to play in Sacramento, Dallas, and Los Angeles, with a possible short engagement in San Jose in 1972.

"WINGS" played in Santa Cruz last April to a standing ovation for Mr. Thomas and a request to return next year. Along with the showing of the film, "WINGS" there will be a foyer exhibit of old time movie posters and equipment. The Marjorie Evans Gallery at Sunset Center will feature an exhibit of long buried art treasures from the Harrison Memorial Library vaults.

More consumer service tips from PG&E:

How to light a gas pilot.

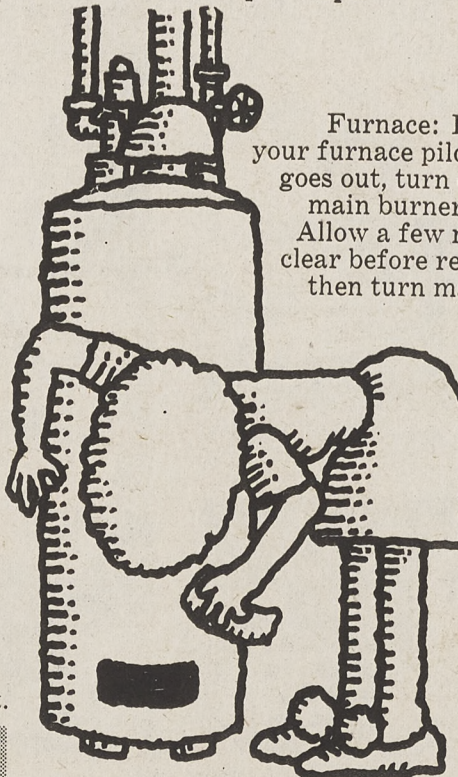

You needn't be uneasy about relighting a gas pilot. It's an easy, quick and safe procedure when you follow these simple steps:

Gas Range:
Before lighting a pilot on your gas range, be sure all burners are turned off. Check your owner's manual for the location of the pilot and touch a lighted match to the opening. For maximum heat with minimum use of fuel, the pilot and burners should burn with a light blue flame.

Water Heater: The main burner on a modern gas water heater or dryer will not operate if the pilot goes out. To relight a water heater, set the control to "pilot" and follow manufacturer's instructions.

Dryer: Turn dial off and relight pilot.

Furnace: If your furnace pilot goes out, turn off the main burner valve first. Allow a few minutes for gas to clear before relighting the pilot, then turn main valve back on.

When you go on vacation, set your water heater to "pilot." This keeps the pilot lighted and prevents the main burner from heating water.

Never look for a gas leak with a lighted match or candle.

If all your gas pilots are lit and you smell gas, call us immediately and we'll send a serviceman to investigate. If you are unable to light a pilot, we'll help. A plumber, appliance repairman or furnace man should be called if any appliance needs repairs or parts.

Attorney(s) for Petitioner
SUPERIOR COURT OF CALIFORNIA, COUNTY OF MONTEREY
1200 Alvarado Rd., Monterey, Ca. 93940

In re the marriage of
Petitioner: Elsie M. Johnson
Respondent: Jacob M. Johnson

CASE NUMBER MD 3377
SUMMONS (MARRIAGE)

The petitioner has filed a petition concerning your marriage. You may file a written response within thirty days of the date that this summons is served on you. If you fail to file a written response as such time, your default may be entered and the court may enter a judgment containing injunctive or other orders concerning division of property, spousal support, child custody, child support, attorney's fees, costs, and such other relief as may be granted by the court.

If you wish to seek the advice of an attorney in this matter, you should do so promptly so that your written response, if any, may be filed on time.

In Pro Per
SUPERIOR COURT OF THE STATE OF CALIFORNIA FOR THE COUNTY OF MONTEREY
Filed: July 28, 1972
No. M 5634

ORDER TO SHOW CAUSE
In the Matter of Application of WENDY ANN CARROLL for Change of Name
Whereas SYBIL RUTH HUMPHREYS, petitioner, as a parent of applicant, WENDY ANN CARROLL, a female under 21 years of age, has filed an application with the clerk of this Court for an order changing applicant's name from WENDY ANN CARROLL to WENDY CARROLL HUMPHREYS;

IT IS ORDERED that all persons interested in the above-entitled matter appear before this Court at 9:30 a.m. on Friday, September 15, 1972 in Department Number 2, at 1200 Alvarado Road, Monterey, County of Monterey, State of California and show cause, if any, why the petition for change of name should not be granted.

IT IS FURTHER ORDERED that a copy of this order to show cause be published in the Seaside POST and News-Sentinel, a newspaper of general circulation printed in this county, once a week for four successive weeks prior to the date set for hearing the petition.
